Subject: Dismay at Microsoft false!

To: DOJ & States

I just wanted to express my extreme dismay at the total & complete cave in that the DOJ & many states agreed in the Microsoft settlement. I mean if you were going to back down so much why'd you even bother with the big trial for the last 2 or 3 years?

What a disappointment. Ohwell perhaps the E.U. has more of a spine then the DOJ & States. Of course their remedies can only do so much since it's a US company ...
